Why Exhibit in Riyadh?

Saudi Arabia's Logistics and Warehousing Market is Expected to Surpass \$38 Billion by 2030...

Riyadh is the center of the largest Middle East logistics sector with continued rapid growth, driven by Vision 2030 initiatives.

Saudi Arabia's National Strategy for the Logistics, Transport and Warehousing Sectors is a Key Component of Vision 2030.

The Strategy Will Transform the Kingdom into a Global Logistics Hub. The Hub will Serve 6 Billion People on 3 Continents.

The Rising Demand in Logistics and Warehousing Sectors

The growing construction of warehousing hubs has created significant opportunities due to the increasing demand for high-quality, automated facilities that ensure a smooth supply chain process. As businesses seek to optimize their logistics, there is a strong demand for integrated centers featuring new-generation logistics facilities. Widespread opportunities for logistics and warehousing providers, 3rd Party Logistics companies. High demand in this sector offers widespread opportunities for technology providers.

Saudi Arabia's Industrial Racking Systems Market Expands Alongside Growth in Warehousing and Logistics Sectors

The rise of e-commerce and supply chain optimization has increased demand for efficient storage solutions, with industrial racking systems helping businesses maximize warehouse space and improve inventory management. The increasing demand for efficient supply chains provides key opportunities for growth and innovation in logistics, warehousing, and technology companies.

Why Exhibit with Riyadh Exhibitions Company (REC)? Exhibiting at the Largest Industrial Sector Gathering in the Middle East, Offers Companies the Chance to Expand in One of the World's Most Dynamic Logistics & Warehousing Markets...

Saudi Smart Logistics is held concurrently within Riyadh International Industry Week (RIIW). It is the largest gathering of the industrial sectors stakeholders and trade buyers. Celebrate the sustained success of 22 editions of the Kingdom's leading industrial trade fairs.

Held concurrently:

Key Figures in 2026 Edition

Sold out show despite challenges...

Due to well known geopolitical situation that started at the end of February 2026, the Riyadh International Industry Week 2026 incorporating the 21st edition of Saudi PPPP and 4th edition of Saudi Smart Logistics was moved from mid April to 21-24 June. The only Riyadh international event that was not canceled or moved to the fall period. The decision was made as a result of REC's total alignment with national priorities and commitment to confirm that Riyadh was safe and open to serve its local and international stakeholders.

Thanks to the collaboration of all our stakeholders: Ministry of Industry and Mineral Resources support and participation, their excellencies the Ambassadors that participated, our unwavering local and International exhibitors, and the professionals and trade buyers that participated that made Riyadh International Industry Week 2026, a sold out show.

We also recognize at this exceptional event the role of the REC team of 75 professionals that never gave up and supported our stakeholders to conduct their business in safety and comfort at the center of the largest market in the Middle East region despite all the challenges.

Who Will You Meet?

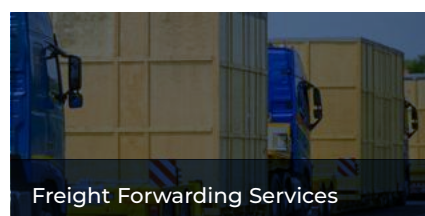

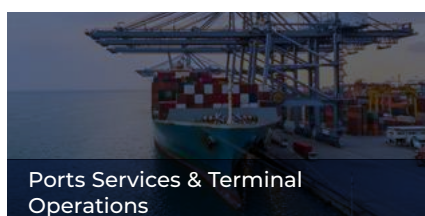

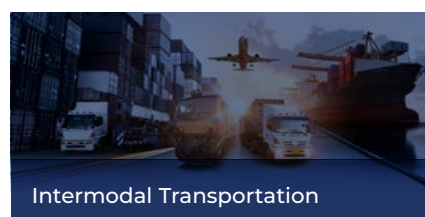

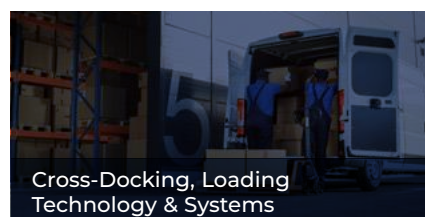

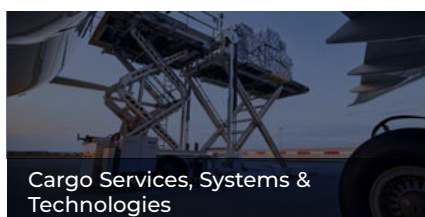

You will meet key decision makers that include:

- Warehouse & Logistics Managers
- Technical Managers
- Procurement Manager
- Product Managers
- Software Engineers
- Factory Owners and Managers
- Freight and Cargo Specialists
- Importers & Exporters
- C-Suite Directors
- Logistics & Transport Sector Officials
- Warehouse & Logistics Company Owners
- Managing Directors
- Local & International Investors
- Supply Chain Professionals
- Senior Department Heads / Managers
- Airports, Ports, Rails & Road Decision Makers

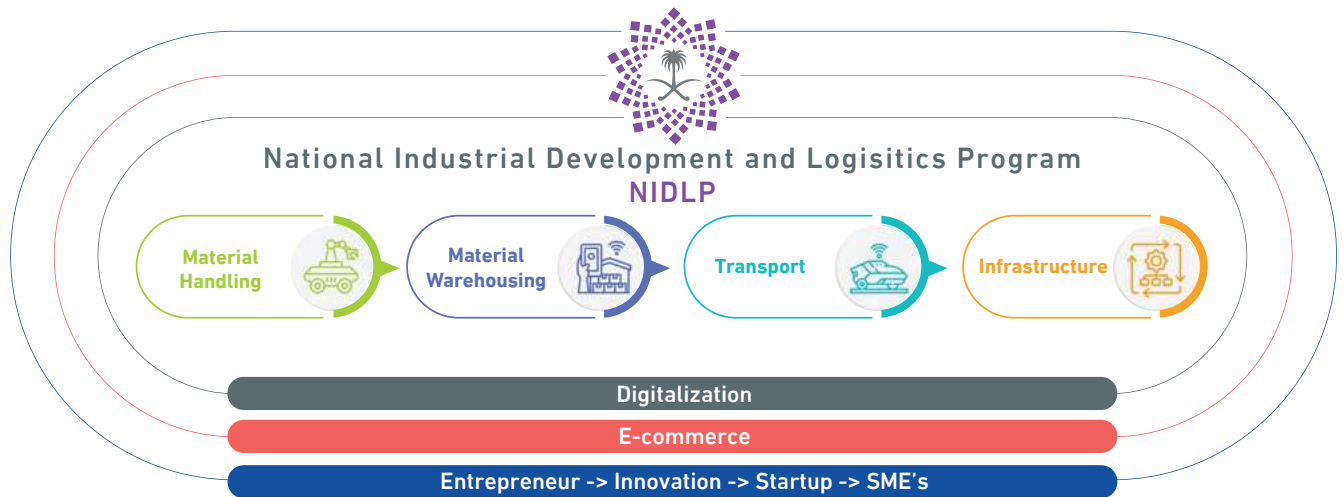

Our Sectors

Products, Services, and Digital Solutions to Serve Factories and Warehouses...

The Market for Plastic Products in the Kingdom is Rapidly Growing as the Boom in the Construction, Food & Beverage and Retail Sectors Continues...

\$27 Billion

National Industrial Development and Logistics Program

The NIDLP will enhance logistics, warehousing, and supply chains throughout the Kingdom and connect the Saudi logistics system to regional and global markets. Government backed funding and Improvements to transportation networks, airports, ports and industrial zones will continue the accelerating industrial transformation in the Kingdom.

\$43.3 Billion by 2030

Warehousing Market Expansion Driven by Economic Success

Saudi Arabia is fast becoming a hub in global supply chain networks as the largest economy in the Middle East. Strong growth is being recorded in the value of the warehousing market, which is projected to reach \$43.3 billion by 2030. Opportunities for suppliers of all types of warehouse automation, digital warehouse management systems, cold-chain storage, material handling equipment, e-commerce fulfillment solutions, and third-party logistics (3PL) services are expected to see growing demand through 2027 and beyond.

\$3.5 Billion by 2030

Racking and Storage Equipment: A Major Driver for Material Handling Equipment

Widespread business opportunities are emerging for manufacturers of racking and storage systems, autonomous mobile robots (AMRs) and automated guided vehicles (AGVs), warehouse automation solutions, electric and lithium ion forklifts, automated storage and retrieval systems (AS/RS), sortation and conveyor systems, and cold-chain material handling equipment, all of which are key components of modern logistics and warehousing infrastructure.

Saudi Arabia's Booming Economy is Driving Growth in the Logistics and Warehousing Sectors...

\$3.77 Billion by 2030

E-Commerce Key Driver for Logistics Sector Expansion

Saudi Arabia's e-commerce logistics market is projected to grow from \$2.24 billion in 2025 to \$3.77 billion by 2030. This growth is driven by rising online shopping adoption, the broader expansion of the e-commerce industry, and the critical need for efficient, cost-effective delivery. As consumer expectations rise, manufacturers and distributors of racking systems, conveyors, automation equipment, packaging machinery, and material-handling vehicles will experience sustained demand, further accelerating growth across the sector.

\$13.36 Billion by 2030

Light Commercial Vehicle (LCV) Sales Increase Driven by Logistics Sector

The GCC light commercial vehicle market was valued at \$8.35 billion in 2024 and is expected to reach \$13.36 billion by 2030, growing at a CAGR of 8.15%. Growth is driven by expanding logistics, ecommerce, and urban transportation needs, along with infrastructure development and fleet modernization, leading to increased demand for efficient Light Commercial Vehicles and new opportunities for manufacturers.

\$6.7 Billion by 2034

Cold Chain Logistics and Warehousing Creates Opportunities for Manufacturers

Logistics and warehousing will be the largest revenue segment, creating opportunities for manufacturers of refrigeration equipment, vehicles, shelving, and racking solutions due to demand for fresh food and pharmaceuticals. Growth in the hospitality and supermarket sectors will drive demand for efficient refrigeration, transportation, and storage solutions, creating high-growth opportunities for logistics and warehousing technology manufacturers.

\$671.5 Million by 2033

Forklift Market in Saudi Arabia Will Grow at 7.9%

Saudi Arabia's forklift market generated revenue of \$364.2 million in 2025 and is expected to reach \$671.5 million by 2033. Due to the accelerating growth of the logistics, manufacturing, and warehousing sectors, this market is expected to grow at a CAGR of approximately 7.9% from 2026 to 2033. Opportunities for manufacturers and distribution agents will accelerate in line with these growth projections.
